

A note on our near-future at the restaurant:

Nothing is more important to us at Mezza Luna than the members of our community, the guests that we serve every single day. With that in mind, and after serious deliberation, we've decided to close our dining room to the public and offer curbside to-go service only for the foreseeable future. We feel that this is simply the right and necessary thing to do as we consider the positive effects social distancing will have in the fight against COVID-19's spread.

The impact this will have on our whole community (our staff, our guests, our suppliers, and our neighbors) has weighed on every aspect of our deliberations. We will be monitoring the situation day-by-day and week-to-week. As soon as we determine that it's safe to re-open, we will.

Until then, our kitchen will be working dinner service for to-go orders, Tuesday through Saturday from 4 PM until 8 PM. We will even deliver your meal curbside, so that you don't have to leave your vehicle.

Thank you for your understanding and, as always, your support of our local community restaurant.

- The Mezza Luna Team
